

NatureLink Perth

Transitioning Perth to connect people and nature

Exciting new guides from NatureLink Perth internship projects

This easy-to-use guide by Kayla Tribbeck provides links to all the information you need to design and install a native garden on your verge, including your local council regulations and incentives.

Rachael Graham's 'Boosting Backyard Biodiversity' provides a fascinating, visual guide packed with information on how to create a more beautiful garden where you can enjoy birdsong, entice pollinators to come and make your veggie garden more productive and generally feel good about doing your bit for local wildlife by pushing back biodiversity loss in the city.
